The Erasmus Mundus Programme

Erasmus Mundus (2009-2013) is a cooperation and mobility programme in the area of Higher Education, funded by the European Commission.

Erasmus Mundus aims to promote European higher education, to help to improve and enhance the career prospects of students and to promote intercultural understanding through cooperation with non-European countries, in accordance with EU external policy objectives. It supports the creation of partnerships between European and non-European higher education institutions, exchange and mobility at all levels of higher education, including a scholarship scheme. This means support for mobility for students, PhDs, post-doc and staff (academic and administrative).

The BE MUNDUS Project

It is in this context, the Erasmus Mundus BE MUNDUS project grants scholarships to Brazilian and European students, researchers, and staff members to undertake a mobility period, or a full degree, in some of the best universities in Europe and Brazil. Scholarships are available to undergraduate students in the fields of Engineering & Technology and Education & Teacher Training, as well as to doctorates, post-doctorates, and staff in the field of Engineering & Technology. Administrative staff can also apply. Scholarships include a monthly allowance, travel, insurance and tuition fee waiver.

General objectives:

The main objective of the BE MUNDUS project is to foster inter-institutional cooperation between European and Brazilian higher education institutions (HEI) so to make the EU a privileged region for Brazilian cooperation. In particular BE MUNDUS will contribute to the following objectives and results:

- Foster internationalization and quality of undergraduate studies in Brazil
- Increase EU-Brazil joint research programmes, so to enhance skills and qualifications of Brazilian students while, at the same time, opening up new opportunities for the European market.
- Build capacity among International Officers within Brazilian HEI and thereby contribute to a more homogenous internationalization across the country.
- Foster mutual understanding of EU-Brazil respective higher education and research systems and priorities, so to increase recognition of studies and degrees between the two regions.
- Promote equal opportunities in higher education, by ensuring an inclusive participation in the project.

How to use this guide

Reading this Guide is crucial for a successful application procedure.

This guide is divided in three sections:

A. General information about BE MUNDUS

B. Application Procedure

C. Implementation of mobility

Section A includes **general information** about **BE MUNDUS**, namely the eligibility criteria to apply to scholarships, the types of scholarships available, the partner institutions and the eligible fields of study. In the second part, the **application procedure** is explained in detail.

You should bookmark the BE MUNDUS webpage and read it together with this guide: www.bemundus.eu

Finally, a general overview is given about the procedures for the **implementation of mobility** in case of selection, as well as the **contact details** of the coordinating institution for any additional information or clarification of doubts.

We strongly recommend a regular reading and analysis of the information contained in the website where updates and additional information can be included.

General Information about BE MUNDUS

Please find below BE MUNDUS specific eligibility criteria BE MUNDUS project:

In addition to these criteria there may be others defined internally by each host institution. Check the specific requirements of the host institutions under the 'Courses' section of the website.

- Please include a **valid e-mail address** in your application for communication purposes. Do not include the e-mail of another colleague or friend that is also applying as the communication of results will be done exclusively by e-mail and this could generate problems in interpreting the selection results.

Communication:

The applicants should only have **one valid application** at the beginning of the selection procedure. Being so, if the same applicant has submitted several online forms, only the latest submitted application will be considered for evaluation. All other applications by the same candidate will be disregarded.

The name of a professor or researcher acting as a contact person in the host institution can be included in the application. This may facilitate the evaluation of the application.

In the case of **applications to sandwich PhD scholarships**, we recommend the applicants to request the cooperation of a **home institution's teacher** to support them in the preparation of the application. Also, some institutions require a letter of pre-acceptance by the host institution declaring their availability in hosting the PhD candidate (see the specific requirements of the host institution for further information). Such support will allow an easier selection by the host institution. Simultaneously, the home institution's contact will help the applicants to ensure the quality of the working/study plan, guaranteeing a well structured project that puts together the applicants interests and the priorities of scientific research and local technologies.

In case of applicants from a **BE MUNDUS partner university (Target Group I)**, the application procedure should always count on the support of the home institution's contact person responsible for providing the information about the local eligibility criteria that should be made available to the applicant.

All applicants belonging to a partner university should contact the person in charge for the project implementation at their home institution. All contact details are available online at

<http://www.bemundus.eu/contacts>

English), the upload of the correspondent language certificate is mandatory. If this document is not uploaded, the application will be immediately excluded from the project without possibility of appeal. In case a candidate is from a country whose official language is the same spoken in the host country or in the course offered by the host country it will not be necessary to upload the language certificate.
- **Declaration of Honor - This document must be dated and signed** (mandatory for all types of mobility and you can download an example from the application form)
- **Document that specifically proves your actual status of physical disability (where applicable).** For example: declaration of honor from a doctor'; recent medical exam; etc. In case you fail to do so we will consider your application, but not a candidate with a physical disability.
- **Document that specifically proves your vulnerable socio-economic situation (where applicable).** This document must be dated, signed and stamped by the issuing entity (e.g. indigenous population students can ask their home university to issue such certificate, if their 'indigenous status' was mentioned at the time of enrollment). In case you fail to do so we will not consider you as a candidate in particularly vulnerable socio-economic situation.
- **Document that specifically proves your actual refugee or asylum status (where applicable).**

This document must be issued by a recognized authority and must also be dated, signed and stamped by the issuing entity.

- **Other documents relevant for the application (optional)**

All documents abovementioned (mandatory) must be attached to the Application Form. Incomplete applications or with blank or unreadable documents will immediately be disregarded.

In case you want to attach more than one document in the same field (ex: support letter of the home institution), the attached file should include the scanned copy of all documents, **up to maximum of 2MB**, due to limitations in the webserver that hosts this website.

How to upload a document?

For each document you would like to upload:

1. Click in "Browse" and select the document
2. Click in "Upload"

Start by putting in a folder all PDF documents you want to merge. Then you should use the "Join" command to merge them all in a new single PDF document. You can then upload the new document to the correspondent section.

4. Evaluation and selection of applications

All valid applications received will be included as read-only documents in a protected database. All the legal requisites concerning the manipulation of personal data will be observed and full confidentiality will be ensured. The database will only be accessed and revised by authorized persons in the home and host institutions who have an authorized login.

1st Step: VALIDATION PROCESS

In case of applicants from **BE MUNDUS partner and associate institutions**, before proceeding to the technical/scientific evaluation of applications, the contact person and/or responsible for the implementation of the project in the applicant's home institution will verify all applications and will invalidate those that do not comply with the eligibility criteria established by the programme, the partnership and by the home institution (see section A, 2 and 3).

A direct contact between the applicant and the contact person at the home institution is crucial to determine which the eligibility criteria defined locally are.

In case of applicants from **non partner and non associate institutions**, the host institution selected by the applicant as 1ST option will be responsible for the verification of all uploaded documents and information provided.

In case of vulnerable applicants, the co-coordinating institution, Universidade de São Paulo, will proceed to the checking of the eligibility criteria and the informative documents presented by the applicant.

2nd Step: EVALUATION PROCESS

Validated applications (= applications complying with the eligibility rules) will be then evaluated by the host institution(s) indicated by the applicant. The evaluation panels, composed of experienced academics, researchers and experts selected by each institution, will be responsible to assess and rank the applications. Evaluation will be based on the academic quality, which constitutes the most relevant aspect of the applications' assessment, but will also respect issues such as the geographic and the gender balance, the physical disabilities and the socio-economic situation of the applicants providing a more equal and fair selection process.

Depending on the number of applications received, some partner institutions may decide not to evaluate applications which have chosen those institutions as second or third option. This is an internal decision of each partner and is fully respected by the partnership.

According to the type of scholarship, the evaluation of applications will comply with the following criteria and weighting factors (WF):

Type of Mobility/Criteria (0-100 points)	Academic/Scientific merit and experience	Motivation	Work Plan	Language skills
Undergraduate	75%	25%	-	Yes/No
PhD (sandwich)	60%	10%	20%	10%
Post-doc	60%	10%	20%	10%
Staff	60%	25%	20%	10%

3rd Step: SELECTION PROCESS

The Selection Committee, acting as advisor of the Steering Committee, will supervise the evaluation activities. This supervision aims at validating the assessment procedures carried out by the local selection committees.

This Committee will also elaborate a proposal of the applicants to be selected, according to the established distribution of candidate among BE MUNDUS host institutions, assuring that the criteria based on academic success were considered. Selection will give priority to applicants that are considered good/excellent (those who obtained a grade of 80% or higher) in the evaluation phase by the host institution.

Exception to this rule may be applied by the Selection Committee, particularly in the case of TG3 applicants and or vulnerable candidates, so as to ensure the respect of issues such as;

- Gender balance;
- Priority fields of study (Partners' and Countries');

- Partner's and geographical balance (per region and country);
- Participation of disadvantaged people or disabled;
- Applicant's economic and social conditions, as well as the circumstances of access to Higher Education in ACP countries;

4th Step: COMMUNICATION OF RESULTS

All applicants will be informed by e-mail of the applications' result. The final list will be also published on the project's website for transparency reasons.

5th Step: PROCEDURE FOR APPEALS

Further details on the appeals procedure will be given later on in the e-mail to be sent to all applicants with the selection results.

Please note that in case a selected applicant is afterwards identified as not eligible (e.g. should he/she have submitted false declarations/documents, etc), he/she will have to reimburse the costs incurred by the BE MUNDUS team until that moment (scholarship payments, etc).

Implementation of the mobility

1. Obligations of the coordinating, co-coordinating and home and host institutions

- 1. TRAVEL** – Sapienza University of Rome (Sapienza), coordinator of the BE MUNDUS project, will be responsible for booking and paying a return ticket to/from the host University's city for all selected applicants (hereinafter scholarship holders).

TARGET GROUP	DEPARTURE (origin)	ARRIVAL (destination)
TG 1	City of home Institution	City of host Institution
TG 2	City of origin	City of host Institution
TG 3	City of residence	City of host Institution

In case the home or host institutions are not located in a city with an international airport, the scholarship holders must keep the original invoices/receipts of the local transportation, such as, for example, bus, subway, or train used to reach the closest airport. Upon arrival, a reimbursement request has to be submitted to the host university, through a standard form available on the Scholarship Holder's Section of the website.

In case of long stays (more than 10 months) it will not be possible to buy the return ticket immediately. Therefore, all reimbursement requests will be put on hold until the coordinating institution can buy the return ticket and use the leftovers to reimburse other travel expenses.

All the reimbursements will be made considering the exchange rate of the day in which the expenses were done (click [here](#) to check the official EC monthly exchange rates)..

- 2. INSURANCE** – Sapienza will provide all scholarship holders with a comprehensive health, travel and personal accidents insurance. This insurance will be valid over the entire duration of the mobility period, starting from the day of departure. Students are responsible to inform Sapienza and their host institution of any change in the original departure/arrival date.

Taxi expenses are strongly discouraged. The coordination will carefully analyse each expense, not considering eligible taxi expenses between cities if there are other less expensive means of transportation. Please note that it will not be possible to reimburse neither any accommodation expenses nor a vacation travel to your home country.

The insurance may not be valid in certain countries/regions. It is therefore recommended that the scholarship holders travelling during the mobility, confirm the validity of the insurance before their departure to a destination different from the host country.

3. SCHOLARSHIPS – A scholarship contract defining conditions, benefits and responsibilities related to the BE MUNDUS scholarship, as well as the scholarship instalments and payments, will be signed by each institution, the scholarship holder and Sapienza. Only after this document is signed it will be possible to transfer the scholarship money to the student/researchers/staff account. This will be done according to the following:

- Upon their arrival to the host country, the host institutions (in the case of Brazilian scholarship holders), the home institution (in the case of European scholarship holders – TG1), or Sapienza (TG2 European scholarship holders) will pay scholarships on a monthly basis. Scholarship payment procedures may vary slightly depending on the host institution. .
- Monthly subsistence allowance **can only be paid as from the month of arrival and covers each full month of stay at the host institution.**
- If in the final month the Scholarship Holder stays more than 15 days a full month allowance is to be paid (for example: for academic reasons the mobility duration is 9 months and 15 days only 9 months allowance will be paid, If the duration is 9 months and 16 days then 10 months allowance will be paid.)

4. WORKING CONDITIONS – The host institution will assure that the scholarship holder (all types of mobility) benefits of the same studying/working conditions and the same health and security protection levels than the local students and members of the academic community. The host institution must provide support to the scholarship holder, particularly regarding the administrative procedures required by the host countries' authorities. The scholarship holder should inform timely and immediately by e-mail Sapienza through the BE MUNDUS Team (bemundus@uniroma1.it) in case there is lack of necessary support by the host institution.

5. SUPPORT:

All information about the specific support provided by each partner institution is available online in the partners' section (to come).

All partners will provide full support in the mobility preparation, namely through:

- Visa issues (close contact with Consulates and Immigration Offices)
- Preparation of Learning Agreement/Work Plan (guidance)

All partners will provide full support on arrival, namely through:

- Administrative issues: immigration office, residence permit, registration at the faculty, support in opening a bank account (only for Brazilian scholarship holders), etc.
- Accommodation: information on how to reserve an accommodation before the scholarship holder departures from the home country (hall of residence, if available, or private accommodation with special conditions).

- Welcoming meetings with practical information especially for Erasmus Mundus students and welcoming session.
 - Language courses.
 - Cultural and integration activities promoted by the International Offices.
 - Erasmus Mundus buddy-system (depending on the host institution and only if available).
 - Close monitoring throughout the entire mobility duration.
- 6. RECOGNITION** – In the cases of sandwich mobility (undergraduate and PhDs) all involved institutions shall consider the study/research period undertaken abroad as an integral part of the study/research programme developed in the home institution. Recognitions of modules taken abroad will be granted by the BE MUNDUS partner institutions.

2. Obligations of the scholarship holders:

Sapienza, as BE MUNDUS coordinator, has the right to **suspend** the payment of the scholarship if:

- the scholarship holder withdraws from the project in case of *force majeure*;
- the scholarship holder does not comply with the internal regulations of the host Institution;
- the scholarship holder does not comply with the internal regulations set by the BE MUNDUS consortium.
- the scholarship holder doesn't fulfil the academic requirements (fails) of his study/work program;
- the scholarship holder leaves the host institution for a period longer than 1 week, without prior consent by the host institution.

By signing both the **Statement of Scholarship Acceptance** and the **Scholarship Contract**, the scholarship holders commit to comply with the following rules:

- 1.** In case of reimbursement obligation due to any amount overpaid to the scholarship holder, the scholarship holder has 30 days upon return to the home country to reimburse the Coordinating Institution, Sapienza, following the instructions that will be provided. If the scholarship holder fails to do so, additional banking fees and interests can be charged and judicial steps will be taken.
- 2.** The scholarship holder shall not accept, during the period of the current grant, any other mobility grant awarded by the European Union.
- 3.** The scholarship holder has the obligation to inform Sapienza about any change regarding the study/research/work period abroad, namely the learning agreement or work/research programme and the duration of stay at the host Institution. Should this happen, a new learning agreement or work/research programme must be signed and provided to Sapienza within 30 calendar days. No more changes shall be allowed after this period.

4. The mobility period must be fully respected; it is not possible to divide the duration of stay foreseen by the project, unless explicitly mentioned in the academic/research offer. In case the scholarship holder intends to leave the host University during the mobility flow and during the academic year (even for a limited period), he/she must ask for permission to the host Institution and to Sapienza. This rule is not applicable to academic vacations (Christmas and New Year, Easter, Carnival and summer).
5. Authorized absences/leaves procedure:
 - obtain the agreement in writing (email) from the host institution international office and/or the Professor responsible for the mobility at the Faculty/Department;
 - present a clear justification for the absence/leave;
 - send all information to the host and to the coordinating institutions for previous approval.

Note: please be aware that if you leave the host institution without prior authorization for any reason whatsoever the scholarship will be suspended.

6. The participation in classes is mandatory. Any absence must be duly justified to the professor responsible for the classes or to the Erasmus Mundus team through a suitable document (e.g. Medical statement).
7. Scholarship holders are requested to attend mandatory monitoring meetings organized by the host institutions at least twice a semester. Any absence must be duly justified to the Erasmus Mundus team through a suitable document (e.g. Medical statement).
8. Scholarship holders are compelled to report (by e-mail) to the host university and/or to Sapienza any difficulties experienced during the mobility flow, such as: Language barriers; Integration with classmates; Communicating with Professors; Difficulty in getting study materials; Health insurance; Accommodation; etc.
9. Students must complete successfully their mobility period at the host institution according to the following:
 - Sandwich scholarships (undergraduates/PhDs):** In case the course comprises ECTS credits (the recommended number of credits is 30/60 ECTS semester/year, the minimum will be 20/40 ECTS).
10. The scholarship holder has the obligation to provide, within 30 calendar days after the end of the mobility period, the evaluation form that will be made available online by Sapienza.

3. Monitoring of mobility and project's quality

Several tools will be used to ensure the mechanisms of internal quality control:

1. Mandatory regular meetings at the host institution;

2. Mandatory mobility questionnaires for students, researchers and academic and administrative staff;
3. A mandatory final report prepared by the home and host institutions, based on the assessment of the programme's academic quality done by students, researchers and academic and administrative staff;
4. A report prepared by the BE MUNDUS Steering Committee, based on the mobility reports and student's academic transcripts given by the academic authorities of each institution.
5. An external evaluation on the mechanisms and procedures adopted by the partnership.

As an additional tool to ensure the project's quality and in case it is verified that there are serious differences regarding the approved working plan and the real tasks developed by the scholarship holder, the Steering Committee will take extraordinary measures and eventually decide to suspend the payment of the scholarship.
